### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-10 and 12-26 are rejected under 35 U.S.C. 102(b) as being anticipated by JP2002019852.

JP2002019852 shows a pack comprising a body 1, removal opening 3, lid 15 and filling opening 1.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 11 is rejected under 35 U.S.C. 103(a) as being unpatentable over JP2002019852 in view of Kim WO2007018396.

JP2002019852 lacks showing if the lid has a predetermined rupture line. Kim shows a lid 20 having a predetermined rupture line 220 to facilitate removal of the lid. It would have been obvious to one of ordinary skill in the art to have modified the JP2002019852 lid with a predetermined rupture line 220 as taught by Kim to facilitate removal of the lid.

**Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Futernick and Martin et al are cited to show further examples of tapered stackable containers. Johnson and Gordon et al are cited to show further examples of a container having a follower and pressure operated outlet.
